# The story behind **Sanni Bin**

**The team behind Sanni Bin have over 30 years of experience in conventional sanitary collection and disposal services.**

**With their skills and expertise, they have developed a new and innovative product, disrupting the hygiene market.**

“During COVID-19 our team took a step back from the fast pace of routine business activity and embraced a moment of reflection. It was during this time that we recognised the need for innovation and green solutions in the realm of feminine hygiene waste handling.

Driven by our passion for the environment and our service users, we developed the bespoke and innovative, Sanni Bin - a revolutionary product that embodies our mission to drive change.

Sanni Bin is a friendly solution that reduces costs, minimises environmental impact, and supports businesses sustainability goals.

A bespoke eco-friendly alternative to an essential service.

Through choosing Sanni Bin, our customers can align themselves with their sustainability objectives whilst also contributing to a healthier planet. Together, we can make a difference.”
