#### OUTDOOR EXHIBITION SPACE

Outdoor exhibition space is ground space only i.e. green field site. Exhibitor builds exhibition stand on this space – hiring some form of cover, e.g. exhibition unit, marquee, shed/tunnel – then fitting out the stand with the further infrastructure/furnishing as required.

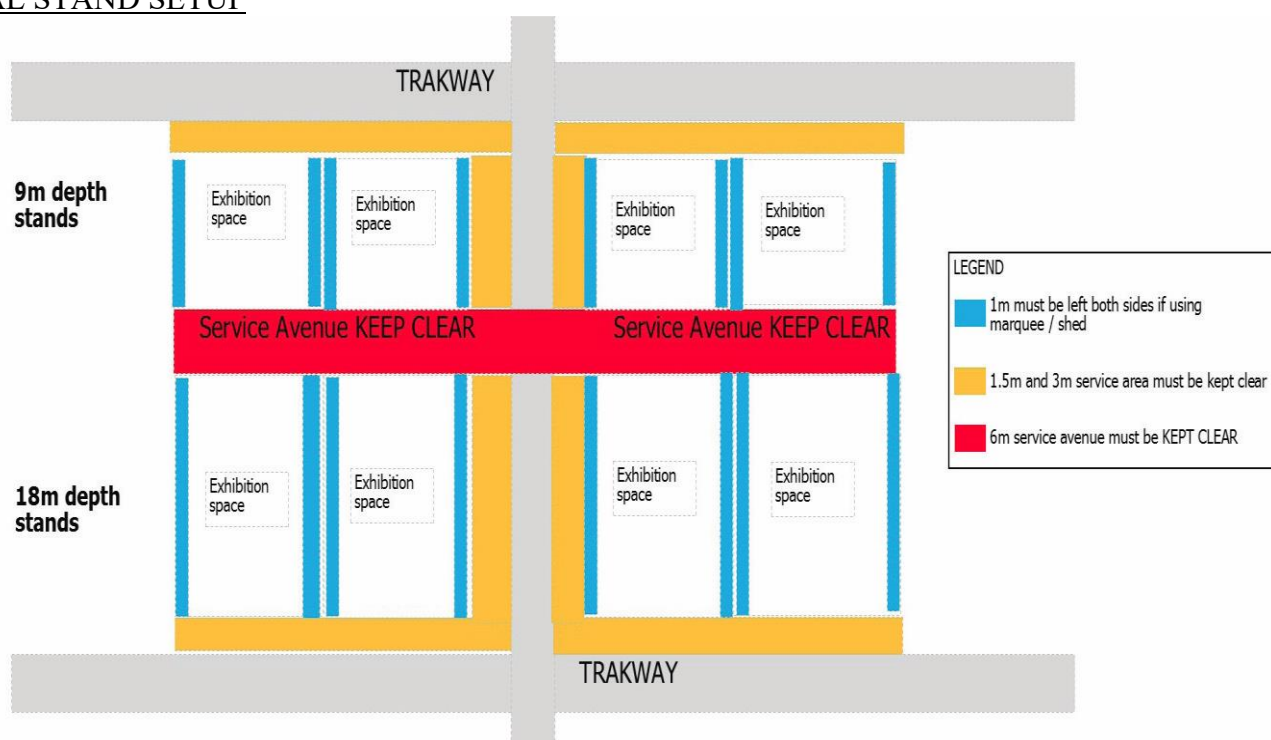

There are two standard depths available; 9 metre depth or 18 metres in depth. Rate is calculated per metre frontage. You determine how much frontage is required (frontage will be your “shop front, facing the trakway”).
